Polycom VVX 500

Key features

- Interactive 3.5”, LCD touch screen
- Up to 12 voice lines
- Integrated HD up to 14KHz on all audio paths (Speaker, Handset, Headset)
- Dual-port Gigabit Ethernet
- Compatible with Unified Communication solutions

The Polycom VVX 500 is a powerful business VoIP phone, featuring a touch screen interface with numerous functions for improved productivity and multi-tasking.

Highlights

• The LCD touch screen provides fast access to your synced calendar, contacts, and streaming media news, sports, weather and stocks. Check your calendar for your next meeting or look up customer contact details, all while waiting for your PC to start up.
• Incorporated dual port Gigabit Ethernet switch for faster data transfer and like VVX models it delivers easy integration with third – party UC and productivity applications.
• Compatibility with Unified Comms and Microsoft software allows for wireless networking and personal video-conferencing.
• Designed for enhanced interoperability, Polycom VVX 500 series leverages your existing IT investments by integrating with more IP PBX systems than any other business media phone in the industry, ensuring you utilise your existing infrastructure.
• Take advantage of polycom HD voice technology, polycom acoustic clarity technology, voice activity detection, comfort noise generation, a dedicated RJ9 headset port, hearing aid compatibility to ITU-T P.370 and TIA and support of compatible USB headsets.
